Job Description
Role: Automated Test Consultant

The role
This is an exciting opportunity to join a dynamic London technology business as an Automated Test Consultant. This role will enable you to develop a comprehensive understanding of makepositive’s specialist Salesforce automated testing application called Provar, and become an integral part of our innovative Products team in the UK.

This is an entry level position where you will work closely alongside experienced Consultants as well as receiving training where appropriate to enable you to:

- Develop an understanding of testing methodologies and automated testing
- Become proficient in the Salesforce.com Platform
- Attain recognised Salesforce.com* certifications
- Develop key business consulting skills
- Work on a variety of challenging and exciting client facing projects

*Salesforce.com is the enterprise cloud computing leader. Salesforce social and mobile cloud technologies help companies connect with customers, partners, and employees in entirely new ways.

Responsibilities
It is anticipated that the successful candidate will be able to:

- Develop automated test scripts on behalf of clients
- Support Client testing teams with their tests
- Deliver online and in person demonstrations of Provar to customers
- Provide on-site consulting
- Assist in the roadmap of the product, and testing of the Provar application

Skills required

- A minimum of a 2:1 at degree level
- Previous experience in automated testing and knowledge of at least one programming language
- Excellent communication, organisational and collaboration skills
- Proactive thinking with a ‘can do’ attitude
- The successful candidate must, by the start of the employment, have permission to work in the UK

Skills desired

- Good Knowledge of Selenium and existing automated test tools
- Experience in salesforce.com testing or testing of other SAAS applications
**makepositive** is a specialist cloud technology firm. We focus on Salesforce. com, and are a both a leading Salesforce. com consulting partner and Independent Software Vendor.

Guided by our core values (Service Excellence, Drive, Commitment, Community, Integrity and Passion) Make Positive combines our heritage as a PWC spin-out with cutting edge technical knowhow. This management consulting background twinned with our passion for innovation sets us apart from our competitors and allows us to solve complex IT problems and build solid leading edge products that meet your business needs from both a commercial and technical perspective. We also work with customers to help them determine their long term cloud strategy.

Our impressive customer base includes 10 of the largest companies in the UK. We have a track record of delivering large enterprise-wide integration projects, as well as developing cutting-edge products, predominantly around social enterprise, customer relationship management and collaboration.

We have three offices: the HQ in London, an office in Manchester to serve clients in the Midlands and the North, and an office in Gurgaon, India, from which we offer product development services, managed support services, testing and technical solutions.
